

- Anything that occupies (takes up) space and has a mass
- EVERYTHING!

For this next unit, we will be studying  
properties and changes in matter.

Talk to you neighbor about what you  
think that entails?

# Rate that Word!

I know it!	I sort of know it	I have no idea

## Matter Vocabulary List

matter

solid

liquid

gas

plasma

water vapor

evaporation

condensation

precipitation

runoff

transpiration

qualitative

quantitative

interaction

property

substance

physical change

chemical change
